Making Color Printing Affordable

The QL-240 is a cost effective, wide format, tabletop color label production system ideally suited for label printing within the facilities of brand owners, print shops or manufacturers. It is a great starter printer for those who want to start printing their own labels or introduce inkjet label technology for reducing costs of ribbon, print head and service. The QL-240 is a smart alternative to expensive, pre-printed labels and thermal transfer labels, allowing for production color labels instead of one-color or black & white labels.

Designed with the user in mind, the QL-240 optimizes LEAN processes by creating smooth and flexible production in-house with its user friendly interface. A versatile system for almost any market, the printer's fast speed allows users to reduce inventory and quickly produce vibrant high resolution labels on a just-in-time basis.

- Fast print speed up to 12 inches per second (60 ft per minute)
- Superior print resolution up to 1600 dpi
- Print width 2" to 8.8"
- Ideal introductory in-house label production system
- Great solution for private labelers and business owners
